

## DEEP BREATHING

1. Stand straight up with feet shoulder-width apart
2. Arms and hands are relaxed downward
3. Body is relaxed
4. Eyes closed
5. Focus on lower abdomen (belly) and imagine a small balloon in that space
6. Breathe in slowly and deeply through nostrils, imagining the balloon inflating (getting bigger/larger/growing) slowly, hold a few seconds
7. Slowly exhale through the mouth, imagining the balloon gently deflating (getting smaller, shrinking); blow out of the mouth as if blowing out a candle
8. Tip: Place a hand over the lower abdomen to feel it go up and down, and make sure you're not breathing with the chest
9. Repeat at least 10 times

Ask students how different their bodies feel after the exercise.  
(Are they more relaxed/calm? Do they feel lighter? Great? Tired?)

### Progressive Muscle Relaxation - PMR

1. Raise your eyebrows and wrinkle your forehead. Try to touch your hairline with your eyebrows. Hold for 5 seconds...and relax.
2. Make a frown. Hold for 5 seconds...and relax.
3. Close your eyes as tightly as you can. Draw the corners of your mouth back with your lips closed. Hold for 5 seconds...and relax.
4. Open your eyes and your mouth as wide as you can. Hold for 5 seconds...and relax. Feel the warmth and calmness in your face.
5. Stretch your arms out in front of you. Close your fist tightly. Hold for 5 seconds...and relax. Feel the warmth and calmness in your hands.
6. Stretch your arms out to the side. Pretend you are pushing against an invisible wall with your hands. Hold for 5 seconds...and relax.
7. Bend your elbows and make a muscle in your upper arm. Hold for 5 seconds...and relax. Feel the tension leave your arms.
8. Lift your shoulders. Try to make your shoulders touch your ears. Hold for 5 seconds...and relax.
9. Arch your back away from the back of your chair (or off the floor). Hold for 5 seconds...and relax.
